Frontend-focused Software Engineer with a degree in Information Systems and Technologies and hands-on experience in React, Angular, JavaScript, TypeScript, and the MERN stack. Skilled in building responsive, user-friendly interfaces and collaborating in Scrum environments. Experienced through roles as a Frontend Web Developer Intern and as a UI-focused Software Engineer Intern at Grid Dynamics.

## Skills

JavaScript • React • HTML • CSS • SCSS • Bootstrap • TypeScript • Angular • Ionic • Node.js • Express.js • MongoDB • MERN Stack • Wordpress • Git • SCRUM • Figma

## Experience

**Software Engineer Intern - UI | Grid Dynamics**

MAR 2025 – SEP 2025

- Working with **React** on a capstone project: an **Air Pollution** Web Application featuring **Google SSO** authentication and interactive map visualization, as part of a 3-member team
- Building responsive UIs and complex layouts from Figma designs using HTML, CSS, SCSS, and JS
- Strengthening core frontend skills through JavaScript algorithmic challenges, TypeScript, and React best practices

**Frontend Web Developer Intern | Ingsoftware**

OCT 2024 – DEC 2024

- Developed two individual projects: a static website from a PSD design using HTML, CSS, Bootstrap, and JavaScript, and a web shop application using **Angular**
- Applied Git for version control and collaborated in a Scrum-based workflow

**Teaching Associate | Department for E-Business | Faculty of Organizational Sciences**

OCT 2022 – OCT 2023

- Assisted in teaching an introduction to web development by preparing instructional materials and conducting exercises on HTML, CSS, JavaScript, and WordPress
- Created questions for online tests and evaluated student assignments and projects on web development

## Education

OCTOBER 2018 - DECEMBER 2024

**Bachelor of Science in Organizational Sciences | Faculty of Organizational Sciences | University of Belgrade**

## Certificates

SEPTEMBER 2025
